

Why this Training

When disruption strikes, leadership turns to you for assurance that the organization can withstand the impact. This training is designed for assurance providers who must go beyond theory – delivering evidence-based evaluations of BCM frameworks, plans, and drills.

You'll gain the tools, regulatory insight, and audit techniques to test, challenge, and improve continuity arrangements – ensuring your organization is not just compliant, but truly resilient.

Who should attend

- Internal Auditors – validating BCM controls and governance
- Compliance Officers – ensuring alignment with ISO 22301, regulatory codes, and sector mandates
- Risk Management Officers – integrating BCM into ERM frameworks
- Quality Assurance Officers – embedding BCM into operational excellence programs
- Professional staff – ensuring BCM principles are implemented as designed and intended

What You'll Learn

- 💡 Practical BCM principles you can apply immediately
- 📊 Case-study-based risk assessment & drill evaluation
- 📋 Regulatory updates that matter
- 🔧 Tools to audit effectively – even with limited resources
- 💰 Cost-effective BCM audit program design

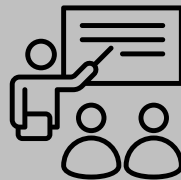

Training Formats & Delivery

- Facilitator-Led Workshop – scenario-based group exercises simulating real workplace challenges.
- Assurance-Focused Approach – meant for professionals who evaluate BCM, not just implement it
- Regulatory Depth – ISO 22301, sector-specific mandates, and emerging standards
- Practical Audit Tools – ready-to-use templates, checklists for BCM assurance

Course Contents (Summary)

By the end of this program, you will have mastered:

- Core BCM Frameworks & Principles
- Business Impact Analysis (BIA) & Risk Assessment
- Audit Planning & Evidence Gathering – structuring BCM audits, defining scope, and conducting fieldwork.
- Evaluating Continuity & Recovery Strategies
- Testing & Exercising Review – analysing drill design, execution, and post-exercise reporting for assurance purposes.
- Reporting & Communicating Findings – crafting clear, actionable BCM audit reports for boards, regulators, and stakeholders.
- Continuous Improvement & Follow-Up
